

assist the local sheriff's department, assist the Nebraska State Patrol when requested. Assist in the enforcement of federal fish and game laws. They work with the Missouri Game Commission on the borders. They work with the Kansas Game Commission on the borders. We are talking about \$29,144; \$26,150 that comes out of the game fund and only \$3,000 out of the general fund. The longevity pay one to five years is 2%; six to ten years 3%; and eleven to fifteen 4%. There are fifty-three conservation officers. Four of them I believe are going on five years, the rest are one, two, three and four years. I think what we are talking about too is the fact that the training of the conservation officers the hazardous work, the fact that they do carry guns, they confront people with guns, differs them a little bit from the regular state employee. Although as a former employee of the state department every job with the state is very important. Colorado and Wyoming the pay scale is much higher than the State of Nebraska. The state troopers and conservation officers are both at the same salary grade which is grade 24 and \$10,596 to \$14,628. I keep....Kansas also has the longevity pay. We must emphasize the fact over and over that Nebraska conservation officers are peace officers and they are both at the same salary grade. I urge you to pass this amendment and I move for its adoption.
